

Iraqi Federation of Industries

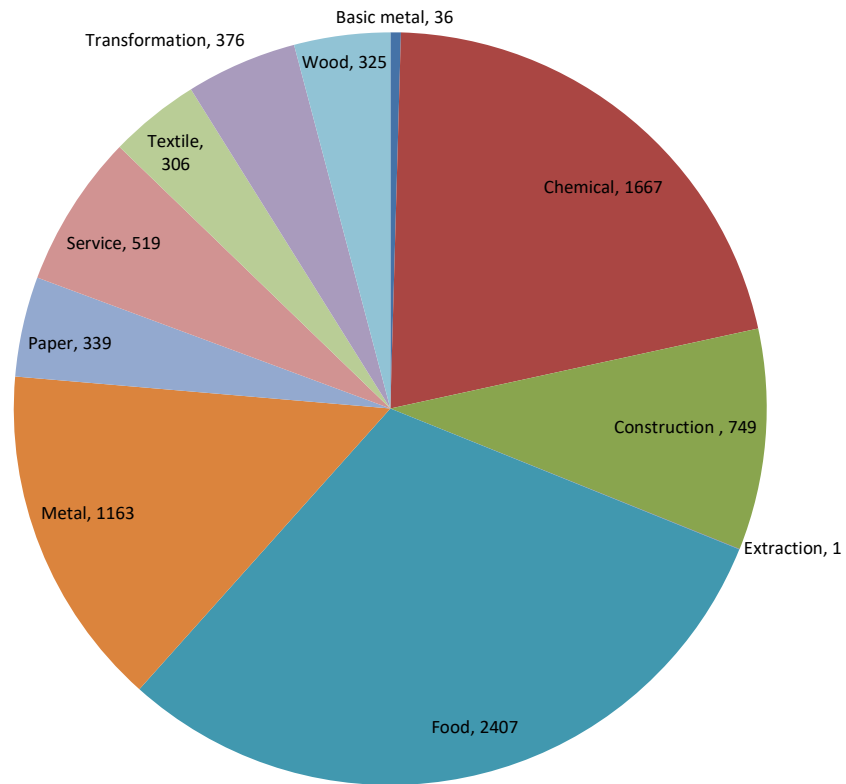

The Iraqi Federation of Industries (IFI) is an independent professional economic development organization founded in the year 1956. This makes it one of the leading private industrial sectors representing organizations in Iraq. The Federation was subjected in accordance with law Number 35 of the year 1956 and its later amendments. It lasted until the law 34 of the year 2002 became in force, where it emphasized through its articles on the role of the federation to leverage its role to increase its effectiveness in the development process and to further boost the role of the private industrial sector. Article 14 of Chapter 3 stipulates that the membership of the federation is optional, whereas approximately 63,000 industrial projects have joined the federation so far.
