Study Tour to Italy in the Agro-Industry Sector

Bari, Italy | 4th- 7th October 2023

FUNDED BY

Mr. Woldeyesus Gezachew Fekadu

Founder and Owner

Gorgeous Solar Solution

Gorgeous Solar Solution, established in 2019, is a startup's last-mile renewable energy distribution network. The company was founded to achieve ambitious plans to electrify the entire country by 2025.

Gorgeous Solar Solution is an off-grid solution provider for rural communities and a renewable energy gateway for people in need. The company has developed a team of professional operators and project managers who take a holistic, right-sized, and integrated approach to design, install, performance monitor and reporting. Gorgeous also designs and supplies solar water pumps for small house-holds farms and large scale commercial farms.

The company is interested in learning more about technological innovations in Italy also in the field of agriculture for rural areas in Ethiopia.

Ms. Adem Sara Siraj

Research Consultant

Green Days Industries PLC

Green Days Industries PLC owns and operates a diversified portfolio of renewable waste management solution totaling approximately 23 Millions (kg) waste processing per year. Green Days offers recycling solutions which aid in the development and creation of the circular economy.

Green Days Industries PLC utilizes superior technology to close the loop between disposal and manufacturing. Breaking down plastics and rubber into raw components while supplying clients with top quality regained raw materials.

The company is interested in learning more about technological innovations in Italy also in the field of agriculture and circular economy.

Ms. Tsenbelo Heaven Belihu

Founder and CEO

Clean Addis Recycling Plc

Also dealing with coffee export (Topaze Coffee Company)

Clean Addis Recycling PLC is a privately owned company that works in the recycling of dry waste materials. The company was established in 2017 and has created several employment opportunities with the emphasis on empowering women. The company works in collaboration with the Addis Ababa City Dry Waste Management Agency. Currently, the company is providing semi-processed recyclable waste products to several local companies and is working towards becoming major exporter of processed and semi-processed recyclable products for global customers.

In addition to waste management, the CEO also deals with agro-food products, particularly with Ethiopian coffee production and export.

The entrepreneur is particularly interested in learning more about new solutions and technologies implemented in Italy in the field of circular economy and precision agriculture also useful for coffee production.
