

ITALY-KENYA BUSINESS & INVESTMENT FORUM ON GEOTHERMAL
IND.A.G.O. snc Presentation

NAIROBI – KAWI COMPLEX AUDITORIUM
March 2023

We are based in Rovigo – Northern Italy

History/Facts

- Founded in 2001
- Involved in Geophysical surveys from the beginning
- Composed by Geologists and Geophysicists
- We are also distributors in Italy of worldwide well known Geophysical instruments manufacturers

History/Facts

Actually we are distributors in Italy of several important brands of geophysical Instruments manufacturers, so that we have state of the art surveying technology

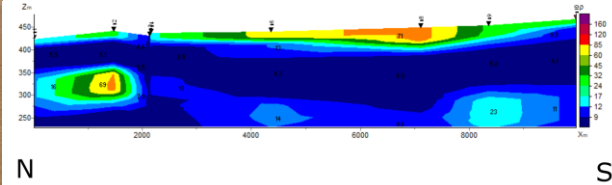

What we offer:

Our expertise and professionalism to better understand Geological settings in order to Optimize resources. We use TEM, VLF, MT, ERT and Seismics methods

TEM
GAROWE - PUNTLAND (SOMALIA)
TERRE SOLIDALI ONLUS

This is a case in northern Italy, in an area close to ancient volcanoes (Colli Euganei), where the client asked for depth determination and consistency of geothermic reservoir
